

Modo's JumpStart

An Introductory Course on Robotics and Programming

Course on Robotics & Programming

Modo's JumpStart is a blended curriculum that brings in globally relevant robotics and programming course to your fingertips. The course is delivered through video lessons, combined with educational robotic kits for hands-on learning. Go ahead, give your child the best of what is to come.

Code meets fun.

Introducing futuristic education

The JumpStart curriculum includes:

- Intro to Robots & Robotics
- Components of Robots
- Detailing of Sensors
- Circuits & Switches
- Flowcharts & Algorithms
- Assembly of a Robotic Kit
- Programming with Scratch
- Intro to Drones, 3D Printing,
- Intro to Mars Rovers, AI & much more.
